

Dastan Keneshbekov

Front-end React Developer

224-578-4856

Medvsss13@gmail.com

Chicago, Ill

Objective

Dedicated and motivated Front-end React developer with a bachelor's degree in computer science and software engineering. Proficient in English, Turkish, Russian and Kyrgyz languages, I possess strong technical skill React and front-end development technologies. With a passion for learning and a collaborative mindset, I am seeking an opportunity to leverage my skills and contribute to innovative projects in a dynamic and growth-oriented environment.

Education

Ala-Too International University
Bishkek, Kyrgyz Republic
Computer Science & Software Engineering

Key Skills

- Strong problem-solving abilities
- Team player with collaborative mindset
- Ability to adapt to new technologies and environment
- Communication
- Solid knowledge of JS, HTML, CSS, React.js SASS
- Basic understanding of version control System

Experience

May 2023 - current

Truckstop

- Built and maintained the front-end structure, focusing on growth, responsiveness, and code quality.
- Converted user-friendly designs into working code, ensuring it works across different browsers.
- Boosted the speed and efficiency of live platforms, following React.js best practices.
- Recorded details about the code and the project, including technical specifications.
- Stayed informed about new trends and methods in front-end development, especially React.js.
- Collaborated with UX/UI designers to integrate design elements and enhance user experience.
- Worked with back-end developers to connect front-end and back-end functions, creating a smooth application flow.
- Managed testing and fixing to ensure the stability and quality of web applications using React.js.

Dastan Keneshbekov

Front-end React Developer

January 2022 - March 2023

United Parcel Service

- Met with the front-end team to brainstorm ideas, assess requirements, and solve problems.
- Built and maintained the front-end structure, focusing on growth, responsiveness, and code quality.
- Converted user-friendly designs into working code, ensuring it works across different browsers.
- Boosted the speed and efficiency of live platforms, following React.js best practices.
- Developed user-oriented visuals and features using front-end languages, including HTML, CSS, and JavaScript to
- increase site traffic.
- Developed reusable React components.
- Collaborated with the design team to implement new UI features.
- Contributed to an expanding project implementing mobile-first design approach with Sass-based theming system.
- Designed and implemented HTML email templates and newsletters for marketing campaigns.
